*Non-exhaustive list

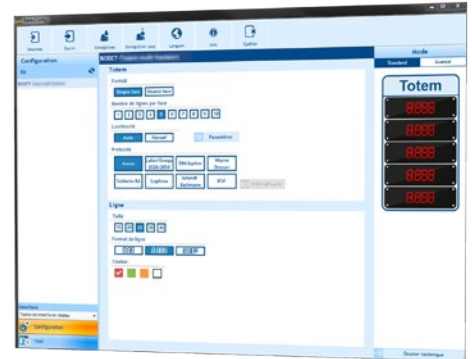

KARBUCONFIG: CONFIGURATION SOFTWARE

All adjustments are carried out using our KarbuConfig software:

- Number of sides
- Number and format of lines
- Protocol type

ADVANTAGES OF THE SOFTWARE

- Preview of the totem
- Saving the configuration of a totem
- Generation of a wiring diagram specific to the price sign

KARBU
LINK
+
POINTS

- **Flexibility:** The control board directly incorporates the standard protocols.
- **Easy integration:** The compact control box is easily housed in the sign structure.
- **Reliability:** The LEDs are protected from short circuiting and the modules are tropical climate-proofed.
- **User-friendly configuration:** With the KarbuConfig software, configure the price sign in just a few clicks.
- **Easy maintenance:** The electronic LED boards are easy to replace, and digits within a line are interchangeable.
