French School of Belgrade

« A harmonious bell brings rhythm to a whole school... »

Thibaud Millier,  
Headmaster of the French School of Belgrade

- Founded in 1951
- 500 students
- 58 Harmonys sounders ordered

Thibaud Millier, Headmaster of the French School of Belgrade in Serbia explains to us why he chose to work with BODET at various times in order to install Harmonys Bell System.

## ORIGIN OF THE NEED

“I called on the Bodet Company because the system used in our school no longer corresponded to our needs. We needed a system more reliable and easier to use. **The firm reacted quickly** and it offered me a complete solution” explains Thibaud Millier.

## A RELIABLE BELL SYSTEM

“I really would like to insist on **the reliability of the products**. Before, I was Headmaster in another facility abroad and I was able to verify the quality of the Bodet Bell system for 4 years. Satisfied, I have chosen a second time Bodet as partner within the French School of Belgrade” he continued.

## HARMONYS BENEFITS

“Through the broadcasting of melodies the Harmonys sounders bring rhythm to a whole school and **help create a flowing circulation**. We also optimize our installation with the use of custom melodies and the use of the microphone during special events such as the end-of-year party. We also perform some Earthquake alert exercises via the Bodet’s Lockdown system,” concludes Mister Millier.
